Objective:

Artificial Intelligence and Data Science undergraduate with a strong foundation in Machine Learning, Data Analytics, and Full-Stack Web Development. Skilled in Python, Java, SQL, Git, and modern development tools with hands-on project experience. Seeking to contribute innovative AI, software, and cybersecurity (GRC) solutions while continuously expanding technical expertise.

Area of Interest:

- **Data Science** (Machine Learning, Data Analysis, Data Visualization)
- **Backend & Database Development** (SQL, MySQL, API Development)
- **Software Development** (Object-Oriented Programming, Application Development)

Education:

- | | |
|---|-------------------|
| • Bachelor of Technology Artificial Intelligence and Data Science
Dr. Mahalingam College of Engineering and Technology, Pollachi CGPA:8.3 | 2023-2027 |
| • HSC
SPK Matriculation Higher Secondary School, Namakkal, State Board Percentage:69 | 2022- 2023 |
| • SSLC
SPK Matriculation Higher Secondary School, Namakkal, State Board Percentage:100 | 2020- 2021 |

Soft Skills

Technical Skills:

- | | |
|--|--|
| <ul style="list-style-type: none">• Programming Languages: Java, Python• WebTechnologies: react.js ,Node.js,javascript• Database: Mysql• AI & Data Science: Machine Learning, Data Analytics• Tools: Git, Github, Docker, Google Colab, Figma | <ul style="list-style-type: none">• Problem Solving: Analytical Thinking, Root Cause Analysis• Team Collaboration & Adaptability |
|--|--|

Projects:

- | | |
|--|-----------------------------|
| AI-Powered Intelligent Chatbot - Role: AI/ML Engineer
• Developed an AI-powered intelligent chatbot using RAG, LLMs, LangChain, LangGraph, FastAPI, PostgreSQL, Computer Vision, and AI Agents, enabling document-based retrieval and context-aware responses. | August 2026 |
| Rule-Based Terms & Condition Risk Analyzer - Role: AI/ML Developer
• Developed a Chrome extension using NLP to parse Terms & Conditions, identify and classify sensitive clauses, calculate privacy risk scores, and provide multilingual analysis. | June 2025 – Dec 2025 |
| Data Science & Analytics - Role: Data Analyst
• Developed data cleaning, preprocessing, visualization, and statistical analysis workflows to extract actionable insights and support data-driven decision-making. | June 2024 – Sep 2024 |
| AI & SQL-Based Stock Management System - Role: Full Stack Developer
• Developed a PHP and SQL-based inventory management application supporting CRUD operations, stock-level tracking, inventory management, and automated report generation. | Mar 2024 – May 2024 |

Internships:

- | | |
|--|----------------------------|
| • Machine Learning- IIIT- KOTTAYAM
Accomplished an internship COVID-19 Headline NLP Analysis and Clustering Report | May 2025- June 2025 |
| • Data Science & Analytics Internship- Coder One
Completed a project on Sentiment Analysis and Text Summarization using NLP. | June 2024- Sep 2024 |

Certifications:

- **Coursevite** - Frontend Web development program (HTML, CSS, JavaScript) TechVolt Software
- **Linguaskill English Test (B1)**- Cambridge Assessment English demonstrates strong reading, writing, listening etc.

Achievements & Extracurricular Activities:

- **IMAGECON 2024 (Youth Tech Event):** Received Award for presenting the project on "Smart Wrist Watch".
- **National Conference 2023:** Presented on CHMUN (Chennai Model United Nations) at American International school.
- Volunteered with NSS in organizing and participating in public service and social awareness programs
